***Are you looking for something productive to do this summer?  
Something that will impact you and others?***

King's Castle Ministries is a child-focused ministry led by AG Missionaries Don and Terri Triplett. Our goal is to reach every child and youth with the message "Jesus saves and is coming soon" through song, drama, dance, puppets, clowns, etc. As part of our summer INTERNSHIP program, you will learn first-hand what missions is all about. You will do ministry throughout the country in schools, streets, parks, and churches as you help lead the missions teams from all over the USA & Canada that come to do missions here for a week. You will work alongside our missionary staff and our national church changing the future one child at a time. You will be equipped and mentored along with other interns and given the tools necessary to change this generation for Christ.
